## FEDERAL GASOLINE TAX

For the information of officials and others, relative to the payment of the Federal gasoline tax, there is quoted herewith an extract from a decision of the Comptroller General dated August 17, 1932:

"\* \* \* It may be stated that where purchases of gasoline are under a contract, the contractor is not entitled to be paid any amount in addition to the price provided for in the contract regardless of whether the price so fixed did or did not include any amount to cover the tax or cost of collection. However, where it is necessary to purchase gasoline in small quantities from retailers without a previous contract, the Government must pay the price demanded, notwithstanding that it may have been increased a sufficient amount to pass on to the consumer the Federal tax and/or the cost of collecting the same."

### FORM 1034 VOUCHERS

Employees preparing and forwarding Form 1034 vouchers should observe the following:

1. Be sure that columns headed "No. & Date of Order" and "Date of Delivery or Service" are properly filled in. When deliveries are made on more than one day, make the dates inclusive and mark them so.

2. Discounts on parts for automobiles or other items must be taken on the total of all the items instead of from each individual item.

3. Make all explanations in the form of a duplicate memorandum attached to the face of the voucher. Do not put explanation on the voucher itself unless specifically requested to do so.

4. Responsibility for duplicate payments rests with the office making the purchase. Never, under any circumstances, destroy a voucher and substitute a new one for it, or submit a voucher covering an item once vouchered unless such action is requested by the bureau.

5. When supplies are ordered on a P-1 requisition, sign the green receipt (Form P2a) you receive from the bureau as soon as the goods are received. If by chance a voucher covering the items is received, forward it to the bureau without signing it or making any notations thereon.

6. Arrange the forms in the following order: (1) Form 1034; (2) Form 1066, certified bills or explanatory memorandums; (3) mailing slip; (4) Form 1034a; (5) duplicate certified bills; (6) duplicate explanatory memorandums; (7) Form P2a, covering all nonexpendable property.

7. Staple all the forms securely together in the extreme upper left-hand corner. Use not other staples.

8. Indicate agreement lease or bid number in the space marked "Contract No. ----, Date ----," and at no other place on the voucher.

9. Quote liability authorization and project to be charged in the space marked "Additional Statements by Department, Bureau, or Office."

10. Before mailing vouchers to the bureau be sure that they are signed by the payee and by the inspector or other person in charge.
